

WHEELER CONSENTS TO RUN WITH BOB

ATTACK OF OLD PARTIES HELPS BOB GAIN VOTES

Change in Attitude of Leaders Gives LaFollette More Prominent Position
CAN'T WIN FOR HIMSELF
Wisconsin Senator May Win Enough Support to Prevent Rivals from Being Chosen

BY ROBERT T. SMALL
Copyright 1924 by the Post Pub. Co.
New York—A change in the attitude of the leaders of the two old parties toward the LaFollette movement in the past 24 hours has given the senior senator from Wisconsin a much more prominent position in the coming canvass. If this sort of "strategy" on the part of the Democrats and Republicans is continued, Mr. LaFollette will find them rendering him far greater assistance than he ever had any reason to expect.

Senator LaFollette has no thought of winning the presidency for himself. He has, thought, however, of stirring up considerable trouble for both the elephant and the donkey and apparently in this ambition he already is having notable success.

The Republicans now are taking the ground that the LaFollette movement is a "menace" to the country. The "menace" consists of the possibility that Mr. LaFollette may obtain a sufficient number of electoral votes to prevent either Calvin Coolidge or John W. Davis from getting the necessary majority of the electoral college.

This would throw the election of a president into the present house of representatives. It has been figured that a deadlock would ensue there. Thus it would devolve upon the senate to select a vice president, who in turn would become president just as if the president had died or other cause of vacancy in the office.

BRYAN WOULD GAIN
The Republicans further figure that the LaFollette strength in the senate would go to Governor Charles W. Bryan, the Democratic nominee for vice president, rather than to General Charles G. Dawes, the Republican nominee. Only these two could be voted for and the coalition of the Democrats and radicals Republican would make the selection of Mr. Bryan certain.

Republican strategists are taking the ground that the selection of Mr. Bryan is the real "menace" of the situation. Therefore, it is their plan to vote for Coolidge so as to offset any possibility of Governor Bryan getting to the White House. They say there must be a coalition that will give Mr. Coolidge a majority of the electoral votes and avoid all the turmoil and uncertainty of a stalemate election.

USE SAME LOGIC
The Democrats are using the same sort of logic in the interests of Mr. Davis. They say that if the conservatives of the country are afraid of Governor Bryan, there is but one way possibly to keep him out of the White House and that is to vote so heavily for Davis and Bryan that Mr. Davis will win without the necessity of the election going to congress for a decision. It also is argued that Mr. Davis is a young and vigorous man and has every chance in the world to serve out not only one term, but two. The Democrats are urging that if the conservatives vote for Coolidge the election is sure to go to congress.

Thus the strategists have figured the situation and it is small wonder that the forces back of Senator LaFollette are laughing up their sleeves. A sudden fright seems to have seized the old party leaders and if their present state of mind is maintained, many of the chief issues of the campaign are likely to be left sign of in the beating of the drums against the LaFollette "menace." Such a campaign would be immensely to the liking of the stormy petrel from Wisconsin and his supporters believe it would add immeasurably to his strength in the northwestern states where his fight for electors is to be centered.

PREMIER PACHITCH RESIGNS HIS OFFICE
By Associated Press
Belgrade, Yugoslavia—Premier Nikola P. Pachitch Saturday submitted to the king the resignation of the cabinet and advised that an election be called.

Premier Pachitch organized the present cabinet on May 21, after he together with his former cabinet, had resigned on April 12.

EIGHT KILLED IN CLASH OF POLICE IN PORTUGAL
By Associated Press
Lisbon, Portugal—Eight persons were killed and several wounded here Friday night in a shooting affray between soldiers of the Republican guard and police.

Monarch Of Newsies Is Here Today

Traffic noises, locomotive whistles, policemen's signals—everything was drowned out when Jack Lloyd, "King of the Newsboys" lifted up his voice this afternoon to let Appleton and all the surrounding country know that he is selling the Appleton Post-Crescent. Recently it was reported that Lloyd drowned out the noise of the Minneapolis fire department battling a fire, and after hearing him this afternoon no one can doubt the tale.

Lloyd was brought to Appleton by the Post-Crescent to show its newsboys how to sell papers. During the afternoon he gave a talk to the news vendors, urging them to loyalty and explaining the principles of their business.

PAL OF AL SMITH
Lloyd is 50 years of age but doesn't look it. He has been selling newspapers ever since he was knee high to a grasshopper and counts among his friends, Gov. Al Smith of New York, recent candidate for Democratic nomination for president. Smith and Lloyd were pals when Smith was a newsboy on the sidewalks of New York.

The sobriquet, "king of newsboys" was given to Lloyd at the time of McKinley's assassination. Lloyd helped catch the assassin and afterwards, with 14 helpers, sold 124,000 papers to the crowd at the exposition in Buffalo where the president was shot.

Lloyd has traveled all over the country and all over the world. His scrapbook contains clippings from hundreds of newspapers in hundreds of cities that he visited.

The "king" draws the line on selling papers when there is a war on. He likes excitement and usually can find it in a fighting army and he has taken part in such unpleasantness as the Spanish-American war, boxer uprising in China, Russo-Japanese war, several wars in Mexico and in the World war.

STATE GOLF QUEEN RETAINS TITLE IN BLUE MOUND MEET

Bernice Wall, Easily Walks Away from Mrs. Landauer, 8 up and 6 to Play

Milwaukee—Miss Bernice Wall of Oshkosh retained her title of state women golf champion here Saturday morning smothering Mrs. Harry Landauer of Milwaukee under a score of 8 up and 6 to play in the annual tournament at the Blue Mound Country club course.

The match was much too one-sided to be interesting. Mrs. Landauer winning only two holes while she succeeded in halving two.

From the start, Miss Wall's advantage was apparent. She won the first hole with a four, while Mrs. Landauer required a seven. Her short game proved faulty. This seemed to unnerve her, and Miss Wall won the next two holes halved the fourth and won the fifth and sixth. On the sixth Mrs. Landauer's tee shot caught in the top of the trees and landed in the pool beneath, while Miss Wall found herself in some trouble with a bad lie off the edge of the green.

The seventh went to Miss Wall when her opponent was in trouble on the fairway but Mrs. Landauer took the next when both were off the green with their tee shot. The Milwaukee woman pitched to the pin while Miss Wall was away. She missed a putt and Mrs. Landauer won with a par three.

Miss Wall, however, played the ninth perfectly, sinking a three while her opponent was in trouble. The Oshkosh girl was six up at the turn and taking things easy, halved the next and won the eleventh and twelfth with fours, ending on the twelfth green.

Mrs. Landauer was no match for her opponent who appeared to be sailing along without effort.

MAN WITH BLAZING SHIRT TAIL TAKEN FOR COMET
Minneapolis—Two patrolmen saw a new comet on Washington-ave. Thursday night.

When it came near they saw it was Arthur Edgah, speeding just six inches ahead of a burning shirt tail. Rescued from his embarrassment, Arthur explained he had fallen asleep smoking a cigarette.

PAIR LEAPS TO DEATH—AFTER ROBBERY ON ROOF
New York—The wages of sin were paid promptly Friday to two of four Negro bandits, who lured a taxi driver to a roof and robbed him of \$4. The driver shouted for help and two of his assailants, attempted to flee, leaped from the top of a six story building to their deaths on pavement of an alleyway below.

Hail The King

JACK LLOYD

NATIONAL GUARDS AT CAMP DOUGLAS PARADE ON SUNDAY

Captain Grundeman Making Bid for Rifle Championship of Camp

Many Appleton people who are interested in Co. D are at Camp Douglas will spend Sunday at camp. The day is to be a gala event for the 2500 Wisconsin National guardsmen in camp. Cavalry exhibitions, polo games, a pageant, wrestling and boxing matches will be features of the day.

Capt. Grundeman of Co. D has made a good start for the camp rifle championship. He scored 138 hits out of a possible 140 on three ranges and had two more ranges to fire. In a baseball game on Thursday, his team beat the non-coms by a 25 to 20 score. Currie was pitching for the new men and Logan for the officers.

Ceremonies on Sunday will be opened with a mounted pageant staged by the 105th Cavalry regiment, commanded by Col. James J. Quill, Milwaukee.

Services will be held during the morning at the grave of Bobby Williams, son of Lt. Col. Charles Williams and said to be Wisconsin's youngest soldier in the world. Young Williams died while in service and is buried on the reservation. After dinner, the Cavalry Regimental Band from Eau Claire, will lead off another parade and exhibition.

SHOWERS, STORMS, WEATHERMAN SAYS
Washington, D. C.—Weather outlook for the week beginning Monday according to the department of agriculture is as follows: Showers and thunderstorms about middle and again during latter half of week. Temperature near normal.

Makes Killing In Corn But Wouldn't Want Son In "Pit"
Chicago—Arthur W. Cutten has just engineered the greatest coup in the history of the Chicago Board of Trade.

Yet he would not want his son—if he had one—to venture anywhere near the grain pit.

"People who do not know the market should keep out of it. It is no place for the inexperienced," he says.

Cutten's last "big killing"—it was on July corn—took nearly \$2,000,000 profit out of the pit.

And along LaSalle the brokers are figuring he has "cleaned up" all told, in cash and paper, approximately \$5,000,000 in the last two months.

That is eclipsing even the famous corners of E. P. Hutchinson in 1883, Joseph Leiter in 1892 and James A. Fisk in 1893.

It was not all "easy money" though. During the time he was buying his corn, Cutten was compelled to take a loss on 4,000,000 bushels bought on contract for May delivery.

Cutten, strangely enough, happens to be a real "dirt farmer." He has 800 acres of land near Downer's Grove, west of Chicago.

Besides his grain, he is raising

Allies Agree On Sanctions To Bar German Defaults

Committee of Interallied Conference Will Insure Investors in Loan of Priority on Resources.

London—The committee of the interallied conference in charge of sanctions in the event of Germany's default under the Dawes scheme, Saturday unanimously agreed to insure investors in the loan to Germany of priority on all German resources in the event of Germany's default.

London—Interallied unofficial American suggestions on the matter of German defaults which were laid before the committee of the interallied conference Friday led to the elaboration of various alternative formulae by the experts, especially by the French, according to the Daily Telegraph's diplomatic expert who says that the American suggestions are ascribed to Owen D. Young, a member of the Dawes committee.

The Telegraph writer says that the French formula was drawn up by Count Peretti De La Rocca, head of the economic department of the French Foreign Office and comprised four articles the first two of which combined parts of the French and British proposals. The third and fourth however, are entirely new.

PRIORITY IS ASSURED

The third article, according to this authority, was to the effect that in order to guarantee the service of the proposed German loan and to facilitate its marketing to the public, the allies declare that in the event of the sanctions being employed following a German default they will regard the service of the loan as enjoying a first mortgage over all those resources of Germany which will fall into their possession or under their control.

The fourth article, it is said, declared that, subject to provisions of preceding paragraphs, all rights now enjoyed by signatories of the treaty of Versailles are reserved.

It was Count De La Rocca's formula that occupied the first committee Friday according to the Telegraph. The newspaper added that general opinion is favorable to the third article, which was discussed at great length, but there is considerable opposition to the fourth as it would leave open the question of separate action by the allies.

REGENTS CONSIDER COTTON'S REMOVAL
By Associated Press
Madison—Removal of F. A. Cotton as president of the La Crosse State Normal school will be considered at a meeting of the state board of normal regents here July 29. It was announced Saturday by William Kittie, secretary of the board.

President Cotton is understood to have presented his resignation to the normal board during its session here the last two days but withdrew it before adjournment late Friday night. The board then announced formal proceedings to remove him.

YOUTHFUL BANDITS HOLD UP BUS PILOT
Unmasked, Armed Youths Rob Driver and Passenger of Interstate Auto

By Associated Press
Superior—Two young, armed bandits, unmasked, clad in khaki army trousers, leather puttees, and gray hats, Friday held up the Interstate bus on Connors Point in the north end of the city. At pistol point the driver, Jake Greenberg, was forced to hand over \$30 of his company's money and \$5 out of his own pocket. Charles Johnson, the only passenger besides the two holdup men, was relieved of \$6 in cash and a gold watch.

The driver was forced to drive straight ahead until a spot about 2 blocks off the main travel roads was reached. Here the two victims of the robbery were compelled to alight and were robbed. Johnson was then tied in his seat in the bus and left alone. The bus driver was hustled to a deserted lumber yard where he was tied tied to a fence by means of his neck tie.

Johnson a short time later extricated himself and notified the police.

CONTROL BOARD PROBES CHIPPEWA FALLS CHARGE
By Associated Press
Madison—Members of the state board of control Saturday declined to make a statement regarding charges of mistreatment of patients at the Northern State Colony and Training school at Chippewa Falls. The board is still investigating the charges, it was said and will make a statement later.

All three members of the board were at the school Thursday, together with John Hannan, secretary. It was stated. Complaints are reported to have come from parents of a Sun Prairie boy who is alleged to have died from mistreatment.

Fire Disrupts Grand Rapids Tram Service
By Associated Press
Grand Rapids, Mich.—Fire in the Grand Rapids Street Railway Co. early Saturday resulted in the death of one fireman, serious injury to another, \$500,000 property damage and the complete disruption of street car service in the southern section of the city. Several other firemen were hurt, though not seriously, when the west wall of the barn collapsed.

Percy Ackers was killed under a falling brick wall and Verne D. Lampler was seriously hurt at the same time.

FEDERALS PREPARE TO QUASH REVOLT
Official Communique Reports Brazilian Troops Awaiting Breaking of Fog

By Associated Press
Buenos Ayres—A midnight bulletin issued by the Rio Janeiro government on the state of the present Brazilian insurrection was received by La Nación. It states:

"Preparations are almost complete for executing a federal maneuver against the Sao Paulo government. Dense fog during the last 12 hours has hindered the necessary reconnoitering but the situation is favorable. President Brenardes, who continues to receive manifestations of support from all parts of the country, had issued a decree extending the moratorium in the state of Sao Paulo until July 27."

GIRL HE RESCUED GETS VALUABLES
Louisville—Ernest Jewell, 23, is advising young men to be very careful about the girls they rescue from drowning.

Jewell showed up at police headquarters wearing only a thin blanket and explained that girl had made off with all his cloths, a \$50 watch and \$58 in cash.

He said he jumped into the river to rescue her from drowning and that afterward she insisted he step behind a fringe of bushes and undress so that she could dry his clothes for him.

Jewell said he tossed over the clothes, money watch and all that if the girl had not thrown him a blanket he probably would be waiting yet for his clothes to dry.

DENVER PUBLISHER DIES AFTER SHORT ILLNESS
By Associated Press
Denver, Colo.—Harry T. Tammen, editor and part owner of the Denver Post, died here early Saturday after a short illness. In addition to his interest in the Post, Mr. Tammen possessed a private fortune estimated at \$5,000,000.

Mr. Tammen had been ill about four months. About three weeks ago he was operated on at Johns Hopkins hospital at Baltimore, Md., and returned to Denver last Monday in the private car of J. Ogden Armour, a close personal friend.

U.S. CONSUL IS FATALLY HURT BY PERSIAN MOB

Advices from Teheran Are That American Official Was Beaten to Death

By Associated Press
Washington, D. C.—A message received Saturday by the state department from American Minister Joseph S. Kornfeld, at Teheran, Persia, said that Vice Consul Robert Imbrie died from shock at three o'clock Friday afternoon after having been brutally kicked and beaten by a mob.

The vice consul and Melin Seymour, also an American, had stopped their carriage to watch a religious demonstration in the city, the message said, and were rushed by the mob who mistook them for members of a sect known as the Bahais, against which the demonstration was directed.

Seymour's condition was said to be so serious as a result of the beating he received, that he has been unable to make any statement.

London—A dispatch to the Evening News from Teheran, Persia, states that Major Robert Imbrie, American consul, died as the result of a severe beating administered by a mob. Another American, it is said, who was with Major Imbrie, was taken to the hospital after being seriously injured.

Other advices from Teheran had it that the "American consul with oriental secretary were photographing the public fountain when a mob suddenly attacked them." It was said the American official was killed and his secretary and several policemen injured.

Earlier dispatches from Washington announced that Mrs. Imbrie had reported to the state department the death of Major Imbrie, vice consul in charge at Teheran. Her message to the department however, gave no details. Washington officials, it was said, were somewhat puzzled at Mrs. Imbrie's message and were awaiting details when they were apprised of the Associated Press dispatch stating that the American consul at Teheran had been killed.

ARREST MAN FOR KIDNAPPING YOUTH AFTER 5-DAY HUNT
Frank Brabrandt, Accused of Kidnapping Carl Roemer, Caught at Marinette

Arrested in Marinette on a warrant charging him with kidnapping Carl Roemer, 13-year-old son of Henry E. Roemer, 413 Walnut-st., Frank Brabrandt, formerly employed at Terrace gardens, is being brought back to Appleton today. The boy whom he is accused of taking away, also is being returned to the city.

The arrest was made from descriptions broadcasted by Sheriff Otto Zuehlke. The sheriff was told that Brabrandt probably had taken the boy and it also was learned that he had planned to go to Montana by way of Marinette. Marinette police were notified and Brabrandt was arrested Friday night.

The Roemer boy disappeared last Sunday and since then the sheriff and the boy's father have been making frantic efforts to locate the pair. Whether Roemer consented to go with Brabrandt or whether he was compelled to accompany him has not been learned here. Brabrandt is expected to reach here late in the afternoon. The last seen of Roemer was at Terrace gardens Sunday morning.

Brabrandt, who is about 30 years of age, is married and has a wife living at Peshtigo. He is a veteran of the World war and is said to have a strange personality. According to information from Terrace garden, he has been in the habit of taking young boys with him on automobile rides.

Whether Brabrandt will be prosecuted on the kidnapping charge has not been determined and the future course of the state will be determined after the Roemer boy is returned to Appleton.

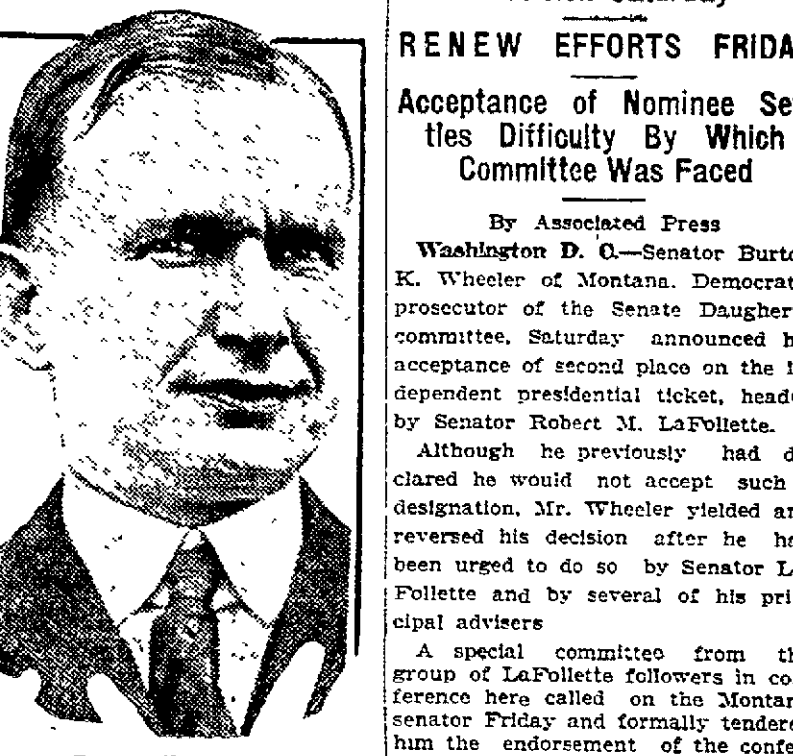

JAIL OSHKOSH MAN ON STORY TOLD BY GIRL MATE
Chicago—Russell Osborne, 24, 26 Algoma-blvd., Oshkosh, Wis., is being held at the detective bureau. He was arrested when Detective Norton of the bureau found him in company with Miss Leonie Steinhilber, 13, 1165 Knapp-st., Oshkosh, who, wearing male attire, left Oshkosh with Osborne, riding freight trains en route.

Osborne, married and the father of two children, may be sent to Oshkosh on a wife desertion charge or held for the federal authorities on a Mann act charge. The police announced the girl's father, Charles Steinhilber, took his daughter home Friday.

The couple met at a dance in Oshkosh, the girl told the police, Osborne induced her to go to Chicago, where they would be married. She did not know, she said, that he was a married man.

Senator Yields To Persuasion Of La Follette

Accepts Bid
Prosecutor of Daugherty Committee Reverses Former Decision Saturday

Senator Burton K. Wheeler of Montana, chief prosecutor of the senate Daugherty committee, has reversed his decision refusing the vice presidential nomination of the Independent and will take second place on the LaFollette ticket.

RENEW EFFORTS
Efforts to get Senator Wheeler on the ticket were suddenly renewed Friday after the national committee had assembled here to select a candidate and map out campaign plans and the Daugherty investigation prosecutor promised a definite answer within 24 hours.

It generally had been supposed that Mr. Wheeler had eliminated himself from consideration, but Senator LaFollette appealed to him personally to change his mind and a delegation called on him with word that the committee, instructed by the Cleveland convention which agreed to support LaFollette's candidacy to endorse a vice presidential candidate was unanimous in considering his name on the ticket.

Committee members were a bit at sea as to where they would turn for a name should Senator Wheeler decline to run. Associate Justice Brandeis of the supreme court, who stands highly in LaFollette's estimation, had let it be known that he prefers to remain on the bench and several others mentioned in connection with the post had indicated they would decline the nomination.

The national committee, in addition to disposing of the vice presidential question, had a number of pressing campaign problems to work out Saturday, among them the question of raising funds to finance the national appeal for votes for LaFollette.

ACTRESS DEMANDS BOND OF HUSBAND
Los Angeles—John C. Howard, actor of a wealthy eastern family, may be placed under bond to leave his wife, professionally known as Ora Carew, free to pursue her career unmolested.

Such a request has been made of District Attorney Koyes by Miss Carew following an early morning altercation Friday in which Howard put to rout Alexander Pantages, theatrical magnate, and Ben F. Rosenbergh, film distributor, when he found them in company with Miss Carew and her sister Evelyn.

The district attorney has heard Miss Carew's story and listened to her demand that her husband be required to post a goodly sum to insure her against further meetings with him. Howard will appear at the district attorney's office to relate his side of the story and what action is taken will follow the conference.

CHURCH BROTHERHOOD WILL HAVE PICNIC SUNDAY

The Brotherhood of First English Lutheran church will have an outing Sunday after the services. Members of the brotherhood and their families will leave from the church to go to Stroebe's island where dinner and supper will be served from basket lunches. The committee on arrangements consists of R. Rehfeldt, S. Radtke, and Henry Kranzsch.

BEG PARDON

The picnic for the Sunday school of Emanuel Evangelical church was held Saturday at Pierce park, not Sunday as was stated in The Post-Crescent.

F. C. Billheim, a retired rural carrier of Seymour who has been visiting Appleton friends for several days, attended the Old Fellows picnic at Kaukauna Saturday.

COUNTY COP GETS FIVE FOR CARELESS DRIVING

Jack Franz, motorcycle officer, had a busy day Friday. Those whom he arrested for speeding were Irvin Jennerjahn and Westley McBride of Appleton and Lester Slender of Kaukauna. Jennerjahn and McBride were

assessed \$13.20 each when they appeared in court Saturday and Slender will be arraigned Monday. Eugene Van Able of Kaukauna was arrested for reckless driving and paid \$4.20 fine and costs. Bert Weinberg of Appleton paid a similar amount for operating his automobile with his cut out open.

STATE DEMOCRATS MEETING TODAY TO FORMULATE TICKET

Hope to Consolidate Behind Convention Candidates for State Offices

Few, if any Appleton Democrats are in Milwaukee today to attend the state conference called by the Jefferson league to consider a state Democratic ticket for the fall elections. Invitations were received by several Democratic leaders but most of them were unable to get away.

Quite a number of men have announced their willingness to be candidates for election to state offices on the Democratic ticket among them Judge Martin L. Luech of Juneau who aspires to Gov. Blaine's position. M. K. Kelly, Fond du Lac, former congressman, is talked of as a candidate for attorney general but Mr. Kelly announced a day or two ago that he was through with politics and would not be a candidate for any office. John M. Callahan, boomed for secretary of state, also said he would not be a candidate but there is a possibility that he will be selected chairman of the state central committee to succeed John P. Hume who will not seek reelection. Democrats are boosting John Armbruster, mayor of Cedarburg for state treasurer.

Democrats hope to place a complete ticket in the field in every congressional district and strenuous efforts will be made to place Democratic candidates on the ballots for county offices.

Modern Camper Can Be As Comfortable As If He Were Living At Home

Alice, though she's been through Wonderland, would be delighted with the disappearing acts staged by the manufacturers of camping comforts, for even in fairy tales there are few if any records of rolling tables, folding frying pans, collapsible stoves, washbasins, nests of dishes and gas grates that can be used miles from civilization.

The man who is particular about his Saturday night ablutions need not worry when on a tour, for a folding bathtub can be carried in the car quite easily. This bathtub is like a camp cot, except that the canvas bag is sunk in the frame. Hot water for the fastidious person can be secured by heating water on the portable gas stove.

The gas stove is in itself worth attention and is a valuable addition to the tourist who doesn't care to stop at hotel and who dislikes the smoke and bother of an open fire, which, however romantic it is pictured, isn't as much fun in the long run as convenient. The gas stove has a tank for gasoline on the side, into which is injected air, forming gas.

FOLD UP THE STOVE
With the stove comes all sorts of devices. There is an oven that may be attached so that cakes or cookies may form a part of the camp menu, and utensils with folding handles that fit right into the stove and can be carried with it easily. The stove, with baking utensils and oven, can be packed into a small case.

For those who like an open fire, camp grates will be a welcome addition to a camping outfit. These grates are like tables and can be placed about the fire. Miniature stoves also are shown in several of the local stores. There are several other kinds of aids for open fire cooking, but most are on the same order.

Of course, there are always folding camp chairs, cots and stools, but campers have always carried these. Tables made of narrow pieces of wood, lathlike in appearance, can be made into a roll and carried easily. At one store they suggested that since the table was square it might be used for poker playing in the evening, after a long day of touring.

TENTS OF ALL KINDS
Tents, not the least of the camper's equipment, are shown in all sizes at all prices. One storekeeper boasts that he has a tent in stock that can be set up in five minutes. It had only one pole, needs no guy ropes, is ten feet square in size and its height is such that one can stand upright in it at any point. The tents are sold at \$22 and up. The tent that most people buy costs about \$22.

Another camp convenience that is featured is the case that contains en-

ameled dishes, knives and forks, napkins, thermos bottles, and other utensils. One case is of a size to fit on the running board of an auto; others are of a size that can be stowed away under the back seat or on the floor of the car. Dishes that fit into each other, called nests of dishes, retail at \$5 a set. Six cups, fitting into each other though all the same size, and other small items can be secured separately if one doesn't wish the entire set.

Among other conveniences is the folding lantern. This is collapsible and can be tucked into any convenient place. Flashlights, hunting knives, axes and other tools that help the camper are shown in every size and brand and there are few things that cannot be secured in collapsible form.

Picnic and Dancing, Sunday, High Cliff. Night Hawk Orchestra.

A welcome dish for daily spreads is DANISH PRIDE MILK. At your grocer.

YOUNG PEOPLE MEET HERE IN NOVEMBER

The next state older boys and girls conference conducted by the Wisconsin Christian Education Council will be held in Appleton on Nov. 7, 8 and 9. The last conference which was held at Beloit was attended by 726 delegates. It is expected between 600 and 700 boys and girls between 16 and 23 years of age, with their leaders, will be in Appleton for the three days. One of the speakers will be Dr. M. A. Honline of Pasadena, Calif., who is perhaps the foremost speaker on religious education on the American platform.

24 NOW ARE ENROLLED IN CENTRAL A. A. L. BRANCH

Twenty-four members have been enrolled to date in the new branch of the Aid Association for Lutherans which is to be organized in St. John Lutheran congregation, town of Center. The Rev. A. Verner is pastor of the church. Canvass of the entire membership probably will be made before the meeting is called to organize the branch formally. The work is in charge of G. D. Ziegler, president of the association.

More Boys And Girls Enroll In Reading Course

The children's department of Appleton Public Library has given out 60 booklets to children who are interested in the summer reading course and it has been announced that children may still enroll, for the only requirement is that six books approved by the librarian be read before Nov. 1 and entered into the booklet provided by the department.

The children are quite enthusiastic about this plan and booklets are being issued every day. Certificates will be given to those who have filled the requirements. These will be issued during children's book week, Nov. 9 to 15.

Another contest that is interesting to the little folks is the poster contest for all children registered in the department. The posters are to be on some particular book that have caught the fancy of the children or may be on books in general. During the first part of November prizes in the form of books will be awarded ten winners of the contest. Children may enroll at once for the poster competition.

PULPWOOD POURING INTO VALLEY MILLS

Pulpwood is again arriving in Appleton in large quantities from 30 to 40 carloads being received daily over the Soo line alone. This wood comes from lands in northern Minnesota owned by the Consolidated Paper company of Wisconsin Rapids and is destined for its Interlake mill in this city. Wood, rafted from Canada has not yet commenced to arrive. It is expected soon and the shipments will cover over a period of several weeks.

UNCLE SAM OFFERS 100 JOBS IN PATENT OFFICE

The civil service commission has announced an examination to be held on August 20 and 21 for positions as assistant examiner in the United States patent office at Washington. The entrance salary is \$1,860 a year and promotions are provided from time to time to as high as \$5,000 a year.

One hundred additional places are provided by the recent appropriation act. There is therefore an exceptional opportunity for appointment to those who pass the examination, which consists of physics, interpretation of mechanical drawings, techniques, mathematics, modern languages and some branch of engineering.

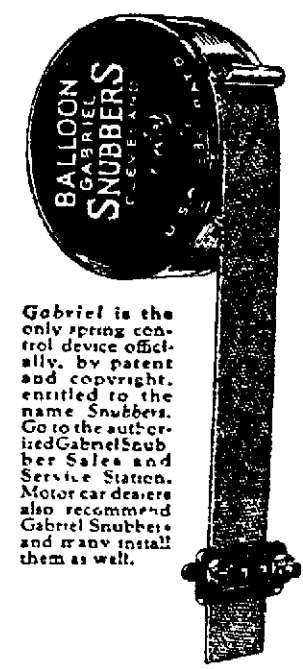

Announcing the NEW BALLOON Type SNUBBERS

The new Gabriel Balloon-Type Snubber, for use with balloon and low-pressure tires, is, we believe, the greatest advancement in 20 years toward greater motoring comfort, riding ease and safety.

The increased spring action and the greater upthrow which result when balloon or low-pressure tires encounter unusually large road bumps, are now for the first time, scientifically and thoroughly controlled.

At the same time, the new balloon-type Gabriel Snubber is so constructed that it permits absolutely free play of both spring and tire for their own absorption of small irregularities on apparently smooth roads.

In response to the demand of the public, the motor car manufacturer, and the tire manufacturer, Gabriel has produced a balloon-type snubber to meet the exacting requirements of balloon and low-pressure tires.

Gabriel is the only spring control device officially, by patent and copyright, entitled to the name Snubbers. Go to the authorized Gabriel Snubber Sales and Service Station. Motor car dealers also recommend Gabriel Snubbers and many install them as well.

COMMUNISM AND WAR

The International Communist congress at Moscow has set aside a fortnight of anti-war demonstration all over Europe and in the United States, as an observance of the tenth anniversary of the outbreak of the World war. There is an ironical phase to the professed hostility of communists to war that will not escape the thinking world. War to a communist is a moral right to be enjoyed only by communists themselves. It is proper and just for communists to make war, but all other armed conflict is wrong. Indeed, communism could not exist in Russia, even on the reduced scale applied, for a single day if it were not for a huge standing army and the use of relentless force to maintain its tyrannical power.

Furthermore, the spread of communism can only take place through the agency of war. The Russian revolution, after its success, was regarded by the Communist Internationale as merely the first step in a general outbreak that would involve all of Europe. Since that time we have had constant propaganda and the expenditure of much money and effort out of Moscow to nurture the seeds of revolution in the other countries of Europe, and even in the United States. Therefore, war on all other institutions is the sole hope for the spread of communism.

It follows that communism naturally thrives where there is general discontent, depressed economic conditions and chaotic politics. The Russian communists are bitterly opposed to the Dawes commission plan for settling reparations because they are hostile to any method of settlement that will actually bring about an understanding in Europe and help to restore it to peace and prosperity. If this is done Europe will have no use for communism and without territory for expansion communism will speedily run itself out in Russia. The communist leaders have had enough experience already to realize this. They are frantically engaged in a conspiracy to extend their destructive doctrine into other parts of the world, knowing that unless they are successful in this that the downfall of themselves and their system is inevitable.

GUEST OF KNOWLEDGE

Word comes from Washington that the Carnegie institute's Maya expedition has unearthed a beautiful city in Yucatan. Chichen Itza was the Maya capital. On the site of this famous center of an extinct, prehistoric civilization the explorers have discovered a magnificent civic center, perhaps the first ever designed and executed, two miles long and a mile wide.

"The Court of a Thousand Columns" is the commanding focus group, consisting of temples, pyramids and other structures. The archaeologists were impressed by the ruins of a great mosaic which once evidently had adorned a temple entrance. Particles of the mosaic were scattered about the stone floors. The mosaic, whatever it was, seems to have contained a figure of Ku Kulcan, the favorite deity of the Chien Itzains.

The scientists have set for themselves the task of restoring the mosaic. They hope, of course, that it may convey some message of importance, some valuable memoranda which will illuminate the ancient era in America. They plan to go

forward with the excavations for ten years.

What the delvers may find in Yucatan will not enhance our happiness, or prolong our span of life, or change our faith in the future. Yet it will furnish us with new knowledge and give us new interest. The gains will be ample. As we investigate the past we shall verify the fact that human nature has ever been the same. Civilization decayed, one after another, not because progress was failure, but because mankind could not accommodate himself to prosperity and luxury. Had we possession of all the knowledge procurable, we should have but very little of it left in a few generations.

MISTAKES

The weatherman is right 88 times out of every 100 in his predictions about weather and temperature. This is claimed by James H. Scarr, who has had charge of New York city's weather bureau for fifteen years. His claim is based on forecasts in his territory. It is probable that the same figures hold true for the country at large striking an average. The government, in fact, does not appoint a student forecaster as official forecaster until he demonstrates that he can score 85 out of 100 accurately in his predictions.

All this does not square with the popular notion that the weatherman is usually wrong. You often hear a person say: "I see rain is predicted. I suppose that means it will be bright and fair." The weatherman's supposed inaccuracy is one of the original jokes—and unfairly so. Why has he gotten a false reputation? Like all the rest of us, he is judged by his mistakes rather than by his good work. People notice that he misses an average of 12 out of 100. That makes them forget the 88-out-of-100 in the matter of accuracy.

An unwise vote on a bit of legislation can wreck the career of a congressman with years of "good work" to his credit. A breath of slander can blast a long-established reputation. One inaccuracy counteracts 100 accuracies. We are all judged largely by our mistakes. The man with wisdom enough to overlook the occasional error is rare.

YOUNG AS REPARATIONS ARBITER

It is generally understood that Owen B. Young of New York will be selected as the "agent-general" for reparations payment. It is planned to create a sort of fiscal agency for the execution of the Dawes plan, and it is suggested that the occupant of this position would also act as arbiter for the reparations commission with a vote on questions concerning Germany's default. The prime ministers of Great Britain and France, MacDonald and Herriot, agreed in advance to this step. All that remains to carry it into effect is acceptance of the MacDonald-Herriot protocol, and some action by President Coolidge approving Mr. Young's appointment.

All of the circumstances surrounding the appointment of a fiscal agent recommend the selection of Mr. Young. He was a member of the Dawes committee and his ability in matters of finance is widely recognized. We think his appointment would be regarded with favor throughout Europe, whose confidence in his integrity and impartiality is established. Mr. Young has signified his willingness to accept under a restricted tenure of office, but he would probably serve long enough to get the plan well under way, and to create an atmosphere of good faith and friendly purpose on the part of both France and Germany.

Since the United States is looked to to finance the German loan of approximately \$200,000,000 it is particularly advisable that the United States should have a representative on the reparations commission in some capacity, and that he should be the judge of circumstances touching possible default of Germany, together with the responsibilities and obligations relating thereto. We doubt whether it would be possible to float a loan in the United States in the absence of such American control over the execution of the Dawes plan. It should be assumed, we think, that President Coolidge will give his approval to the Young appointment and the plan suggested, provided the approval is essential to a complete and satisfactory solution of the reparations problem.

Political graft is being stamped out in Holland and it may keep many of the Dutch from getting in Dutch.

You are not getting old until you leave the swimming hole before it is time to leave.

Cold cream is good for sunburn but not quite good enough.

Health Talks

BY WILLIAM BRADY, M. D.
Noted Physician and Author

Dr. Brady will answer all signed letters pertaining to health. Writer's names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

LOOK OUT FOR DOCTOR BOOKS

"On comparing some of your theories with the facts in my doctor book," writes an impertinent reader. "I find that you do not agree on many points. You claim change of life is not responsible for any sickness or loss of health; my doctor book mentions no less than 30 complaints from that cause. You say it is perfectly harmless for a young woman to go in swimming if she wishes—my doctor book tells me that such carelessness is responsible for the worst cases of female trouble. I believe you claim the acid fruits will not cause uric acid. My doctor book lists"

I find the first 10 times one asserts a—well, let us say a proposition in the newspapers it scarcely arouses any interest. The second 10 times will bring a question or two—such as this: If there is no such thing as a cold then what ails me? By the time one has passed the thirtieth assertion of the proposition a reader here and there begins to wonder if there can really be anything in it. But if you want any considerable number of people to accept the proposition as a fact you must publish it in book form. They assume that nothing but facts can be printed in book form. Notice how this nonchalant correspondent designates my propositions as "theories" and the bunk she reads in her doctor book as "facts."

That's the main trouble with doctor books. So many people assume that whatever is printed in them is so. Of course, it goes without saying that some things printed in doctor books are so. Especially in the one I got off my chest in a thoughtless moment. But my own work, diminutive as it is, left out of the discussion, I dare say one can find more pure humbug in the average doctor book than you would encounter in a cruise of the Rawa. And it is just as good, too, if one isn't serious.

The evil that doctor books do lives long after the quacks who made them have passed to their reward. These morbidly attractive books are the more dangerous just how to combine acknowledged plausible truths with the necessary lies to make a plausible and convincing argument. The unsophisticated reader recognizes the truth and swallows all the lies along with it and it is a fundamental business principle of quackery to keep the prospect thoroughly misinformed.

Probably each of the "facts" enumerated by the correspondent as in disagreement with my theories was accepted as a fact by the old time physicians, but no physician whose medical education is up to the modern standard would be willing to endorse any of the "facts" the woman says she finds in her doctor book.

Show me a doctor who thinks it is harmful for a young woman to go in swimming if and when she wishes and I'll show you a sorry specimen of the genus medico mossback, or maybe a quack disguised as an honest doctor. If any one who purports to have a knowledge of chemistry will endorse the idea that the acid fruits have anything to do with uric acid—well, he won't if he pretends to know anything about chemistry, that's all.

There are plenty of good books dealing with health, which is a subject every one should study. All doctor books, dealing with diseases and morbid subjects generally, should be carefully kept out of reach of lay readers.

QUESTIONS AND ANSWERS.

Night Thoughts

Our class had a warm discussion as to whether or not a person thinks while he sleeps. Some members maintained that you must think, for otherwise how would you know where to walk when you walk in your sleep? (K. E.)

Answer.—No. We think with the conscious mind; it is the subconscious part of the mind that controls us in sleep walking. Out of this subconscious mind come dreams and all kinds of ideas which just "occur" to us, certainly without thinking. The subconsciousness never sleeps. Sleep is merely inhibition or arrest of consciousness.

Over Sixteen

Please advise a girl over 16 if it is all right to go swimming. (Miss L. W.)

Answer.—Accompany your request with a stamped self-addressed return envelope and mention your age and I will send you the advice you need. Mind, I say your request—not a clipping.

(Copyright, National Newspaper Service.)

LOOKING BACKWARD

TWENTY-FIVE YEARS AGO

Saturday, July 22, 1899.

Earl Nugent of Kaukauna called on Appleton friends.

Peter Hoefel was bitten by a dog at Green Bay and was confined to his home as a result.

Miss Edna Cook returned home from Evanston for a five weeks visit with relatives.

The funeral of Henry Ullman of Grand Chute was held at 2 o'clock in the morning at St. Joseph church.

Mr. and Mrs. Jacob Hammel returned from a two weeks' visit with relatives at Medford and Duluth. Architect Herman Willhagen was at Menominee on business connected with the new business block to be erected by Ramsay & Jones for which he was drawing the plans.

The Y. P. S. C. E. of the Congregational church was to hold its annual memorial service at the Willard grave at Riverside cemetery at 6 o'clock the following evening.

The floor of the new warehouse of the No. 1 papermill at Marinette gave away letting a large number of rolls of paper fall into the river.

Mayor Herman Erb, Jr., and John Stevens, Jr., left on a trout fishing trip above Antigo.

The physicians of Appleton, Menasha and Kaukauna held a banquet at Hotel Ritzler Friday evening.

Lake View Cycle club of Merrill was to give a bicycle meet on Aug. 19.

Mr. and Mrs. W. M. Roblee left for Battle Creek, Mich., where they were to attend a family reunion.

TEN YEARS AGO

Saturday, July 18, 1914.

Louis Wichmann returned from a several days business trip to Chicago.

Mrs. E. L. Williams was visiting relatives at Antigo for a few days.

Mr. and Mrs. James Monaghan moved into their new home on Winnebago-st.

S. C. Shannon and family left for their cottage at Lake Winnebago, where they were to remain for the summer.

Mr. and Mrs. James L. Carey and children were guests in the family of William Comerford.

The Union Bag & Paper company of Kaukauna started work on \$50,000 worth of improvements which was to include a new flume.

The board of equalization was in session at the city hall for two weeks.

William F. Kampe, cashier of Outagamie State bank, was elected a member of the executive council of the Wisconsin Bankers association at the convention at Milwaukee.

While driving to Appleton with a horse and buggy Matt Brill was struck by George Walter's automobile which capsized his buggy. The accident occurred on Carver-st and Mr. Brill was thrown into the gutter.

SEEN, HEARD

and

IMAGINED

---that's all
there is
to life

Generally speaking, girls are generally speaking.

IT SURE DO

Doesn't the fellow make you tired who starts his conversation of delicate subjects something like this:

Gosh, I hate the women. I hate their silly ways. And I'm going to stay single. The rest of my days.

That's the way he starts out and then—

I used to like the creatures.

But never will again. Oh, boy, see that pippin? Say, who is that Jane?

—Paddy.

The girls with the new fangled bobbed heads will be as insured to cold as Harry Lauder if they persist in wearing the abbreviated stockings this wintry summer.

Changing the subject from girls to wives, Roscoe declares that the experienced wife is the one who sniffs suspiciously when hubby shows some signs of affection.

Switching from wives to another expensive luxury, it might be well for the Hon. City Council to prepare for a tag day along about Nov. 1 to raise enough money to keep the burg going until the next tax touch is made. What would be jollier than to have the Hon. aldermen's wives prepare a picnic supper to be sold, at 35 cents a throw, with the Hon. aldermen as waiters? It wouldn't be too much of a hardship for the Hon. aldermen to quit chawing terbaccer long enough to serve the folks.

Nursery Rhymes up to Date
Mary had some chewing gum
It was as white as snow
And everywhere that Mary went
The gum was sure to go.
It went with her to school one day.
This was against the rule;
The teacher took the gum away
And chewed it after school.
—So Bright.

A motion to abolish vacations is in order. Since the folks went away for the summer, aids to Rollo are as infrequent as snowstorms in Hades. Unless there is a sudden improvement in this lamentable situation, Rollo will start a movement to elect Mike Steinbauer to the legislature and induce him to present a bill which will make vacations punishable by three months service on the common council.

Down in Madison they are wondering what they can do for a policeman who lost his eyesight while in the performance of his duties. Perhaps he can be given a job in Outagamie county as a special officer to hunt for moonshine stills.

ROLLO.

Saturday Sermon

"Abiding in Christ's Love" is the subject of the following sermon which was prepared for the Post-Crescent by the Rev. E. P. Nuss, pastor of the First Reformed church.

"If we keep My commandments, ye shall abide in My love; even as I have kept My Father's commandments, and abide in His love." John 15:10. In these words Jesus tells his followers the secret, or better, the law and condition of abiding in His love.

In keeping Christ's commandments we abide in the sphere of His love. Everything, animate or inanimate in and about this universe has its certain, definite rules, laws and regulations by which it is upheld, guided and governed. Every mineral, plant, insect and creature has its own element and food on which it feeds and nourishes. Its certain sphere where it may live, laws whereby it may develop. Snow and ice in the cold polar regions; rain and vapor in the hot equatorial regions. Every variety of climate, plant and animal life in between. Only by studying and obeying these divinely fixed laws and orders can we attain success in anything.

In the pathway of the sun there is light. Beyond that there is darkness. Whatever plant or creature needs light to live and develop, must come into that sphere where it would live. Whatever is of such a nature that it thrives in or upon the darkness, must keep away from the light if it would live. The sun will not come to the plant or animal that needs it. It keeps traveling upon its definitely fixed path. Whatever needs the sun must come into the sphere of the sunlight.

STAY WITHIN ELEMENT
The air is for all creatures that breathe. It is the sphere where they live and move and have their being. For a creature that needs air to go into the water, where it is cut off from the air, means death. For the fish, whose natural sphere is in the water, to go into the air, means death. Each must stay in its natural sphere and element if it would live.

A great many varieties of plants grow on this earth. But they could not all live in the same climate, no more than a fish could live in the air or a land animal under water. They all have their regions and climates where they must abide. If we want grain for bread, or flowers to gladden our hearts, we must respect their individual laws, natures and habits. Treat, plant, cultivate, harvest and store them accordingly. The closer we obey their laws, the better success we shall have. The laws of nature must be obeyed, or the penalty suffered. Everyone knows this.

The very same holds true in the spiritual sphere and world. Everything in the spiritual world, just as in the natural, is controlled and governed by definite rules and laws, which we must study and observe if we would attain spiritual success, live and develop spiritually.

OBEDIENCE ESSENTIAL

The love of Christ can be obtained only in obedience to its laws. Just as grain can be raised only in obedience to its laws, and the human body can be maintained in health and strength only by obeying the hygienic laws thereof. To obtain the love of Christ and to retain it within us, we must fulfill the laws according to which it is

The style of it—the material in it—the value behind it—supplies the sunshine—and before you know it, you automatically think of us when you need clothing as easily as you think of Camels when you need cigarettes.

KEEP KOOL SUITS

\$15 to \$35

MATT SCHMIDT & SON

TWO FLOORS OF GOOD THINGS TO WEAR

given, namely, faith in and obedience to God's commandments.

Some animals have both gills and lungs. They require both water and land or air to live. We have a natural body, subject to the natural laws, requiring natural foods and living conditions. These must be obeyed if we would keep our body healthy. We also have a soul which is spiritual, subject to the spiritual laws and regulations, requiring spiritual food and living conditions. These also must be obeyed if we would keep our soul alive and healthy. The animal with both gills and lungs cannot live permanently either on land or in the water, but must change about from one to the other. So with us. We cannot keep our body alive by doing nothing but reading the Bible day and night. We must also eat food. Nor can we keep our soul alive by working day and night without daily spending some time in the reading of God's word and in prayer. We dare not neglect either the one or the other.

St. Paul before his conversion tried very hard to obtain Christ's love, peace and salvation by his own works without obedience to Christ. He lived the very strictest Phariseic life, but all to no avail. He was outside of the sphere of Christ's love and so could not obtain it until he changed his position and moved into the proper sphere. He entered the sphere of Christ's love when before the gates of Damascus he asked: "Lord, what wilt thou have me to do?" From that hour until the end of his life Paul continued in that love by making it the highest end, aim and object of his life to ever please God and remain faithful to his Lord and Master. From then on he could truthfully say: "For me to live is Christ." He

Unusual People

JIE'S OLDEST CITIZEN

Jack T. Higgins of Wabash, Ind., at the age of 106, is the state's oldest citizen. His main boast is that he has traveled in every known kind of conveyance except a submarine. "And I'm going to have a trip in one of them, too, before I die," says he. Of all his rides he got his best thrill out of an airplane trip.

had no other object to live for. "I live, yet not I, but Christ liveth in me," Christ was on the throne of Paul's heart, guiding and directing his entire life, not by force, but by love. "The love of Christ constraineth me."

SERVE ONE MASTER

Are we not all too often trying the very thing which Paul at first tried and failed? Trying to receive the love of Christ outside of the sphere of love, contrary to all the laws and rules thereof? Trying to earn Christ's love by our own works without obedience to Christ's commandments? Living the life of the world, taking part in the sinful pleasures of the world, yet expecting Christ to be our friend, protect, bless and help us, save us, and finally take us to heaven? His answer is: "Be not deceived, ye cannot serve two masters, God and mammon." "Except ye abide in me, ye cannot bear fruit."

In keeping Christ's commandments we abide in the practical experience of His love. The more we serve Christ the more we shall learn that His commandments are indeed commands of love, that they are not something foreign, forced upon us from without as an extra burden we must assume for the benefit of someone else. They are a part of our very true life, a part without which we can never be complete, or perfectly happy or satisfied. But the commandments of God are but rules for the proper guiding, training and developing of our spiritual life. To walk according to them is to grow only in the knowledge, wisdom and grace of our Lord, to become ever more like our blessed Master. Isn't this what we are all striving after, to become daily more like Jesus?

But how may I be sure of this? How will I have actual proof that He will do this also for me? There is but one way. Obedience to His laws. Prove them yourself by keeping them, and you shall soon be convinced.

Just A Moment

Animals grow, live and feed; plants grow and live; minerals only grow.

English and American fiction writers are more popular in Russia than native authors.

The last English king to command soldiers in action was George II, who elected the charge of the Suffolk regiment at Dettingen.

A French scientist is working on an invention by which he hopes to hear distant suns moving through space.

A.A.U.W. Of State Will Meet Here

State Conference of College Women to Be Held Here in October

The state convention of American Association of University Women will be held in Appleton, Oct. 17 and 18, it has been announced. Aurelia Henry Reinhardt, national president of the A. A. U. W. and president of Mills college, will be present at the convention. At the recent national convention held in Washington, D. C., Mrs. Reinhardt was appointed one of five delegates to be sent to the biennial conference of the International Federation of University Women at Christiana, Norway. Miss Mary Louise Brown, dean of women at Lawrence college is president of the Appleton branch of the association.

Wolf Family Holds Reunion At Beaver Dam

A reunion of the Wolf family will be held Sunday at Beaver Dam. It is expected that there will be about 35 members of the family present including the families of Joseph Wolf of Richmond Center, J. W. Murphy of Lake Mills, Edmund Wolf of Columbus, W. F. Homan of Kaukauna, J. L. Wolf and Leon J. Wolf of Appleton, and John Allen of Fond du Lac.

PARTIES

Mrs. H. K. Babcock of Neenah, entertained Saturday afternoon at a bridge party at Riverview Country club for her sister-in-law, Mrs. Harold Lyons.

The Misses Ann, Lucy, Caroline and Sally Pleasants of Neenah, entertained guests at a o'clock luncheon Wednesday at Riverview Country club.

A miscellaneous shower was given Thursday evening at the home of Mr. and Mrs. George Welch, Black Creek, in honor of Mrs. John Jenkel, formerly Miss Clara Welch. Miss Welch was married July 2. Seventy-five relatives and friends were present at the celebration. Games and dancing furnished the entertainment.

Miss Laura Radloff and Mrs. Lulu Kubitz, 970 Appleton-st., entertained at a dinner party Friday evening in honor of several former Franklin school teachers. The Misses Mildred Hilbert of Chicago, Lillie Bucholz of Davenport, Iowa, and Emma Schwandt of Appleton were guests.

LODGE NEWS

J. D. Hanchett gave the report of the state convention held at Janesville at the meeting of Women's Relief corps Friday afternoon. In addition to the routine business a special hour was enjoyed by the members.

Rhine lodge of Odd Fellows installed their new officers Thursday evening. Leo Schwahn, district deputy was in charge of the work. Lunch was served by the ladies of Venus lodge of Rebekahs.

Auxiliary of Spanish War Veterans decided to postpone further meetings until the third Friday in August at the regular business meeting held in the armory Friday evening. Routine business was transacted and yearly dues were collected.

About thirty persons attended the meeting of the Modern Woodmen which was held Friday evening in Rhine hall. Mr. Zerber's entertainment was appreciated so much that he has been asked to repeat the performance at the next meeting.

PICNICS

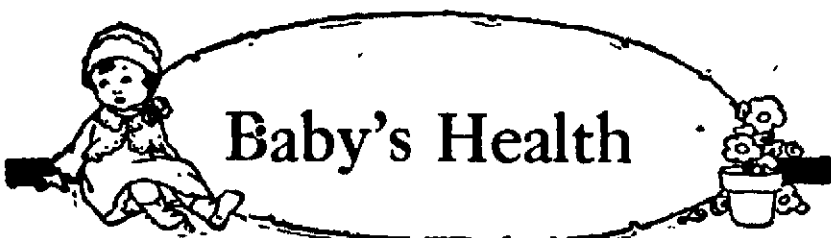

A group of girls held a picnic supper at Brighton beach Friday. Those present were the Misses Adeline Schuster, Blanche Schwaebel, Evelyn Cook, Magdalene De Coeter, Irene Genlesse, Frances Timm, Bertha Bell, Laura Greenz, Mable Zulger, Sadie Bodway and Lena Lange, all of Appleton; Miss Josephine Vandeyacht of Little Chute and Miss Julia Frye of Kimberly. Mrs. Michael O'Shea of Oklahoma, was chaperone.

AD CLUB CHANGES PLACE FOR PICNIC

Appleton Advertising club has changed its plans for the picnic which was to have been held at Waupac on Tuesday, July 21. The picnicers will leave the Conway hotel at 115 Tuesday to go to Stroebe's island. Instead of to Waupaca. The reason for the change in places is the fact that so several members would be unable to find means of transportation to Waupaca. There will be games in the afternoon and a "heavy" baseball game is scheduled. Supper will be served about 6 o'clock by a caterers.

BIRTHS

A daughter was born to Mr. and Mrs. Mitchell Wolf, Kaukauna, Tuesday morning, July 15. A son was born Tuesday morning to Mr. and Mrs. Herbert Wells at St. Elizabeth hospital.

Baby's Health

CHILDREN'S BUREAU, U. S. DEPARTMENT OF LABOR ROOM TEMPERATURES

A very young baby, or a delicate one, requires a warmer room than one older or more robust. For the first few weeks the daytime temperature should be kept between 65 and 70 degrees. At night it may fall from 10 to 15 degrees lower, if the baby is properly dressed and protected. For older babies the day temperature may be from 65 to 68 degrees, and the night from 15 to 30 degrees lower, depending somewhat on the condition of the baby. A healthy child is easily accustomed to a cold room and is not harmed by it if he is kept thoroughly warm in his crib and protected by screens against drafts of cold air. If the mother is in doubt about the baby's welfare on a cold winter night she should test his feet and hands. If they are warm, and he is sleeping quietly, she may be reassured. If they are cold, he needs more body clothing, more covers, or to be screened more completely from cold air.

Winter-In these months of the year when artificial heat is needed it is possible to control the temperature of the baby's room, to a large extent. This is done most conveniently with hot air, hot water, or steam heating systems; but even with stoves burning coal or wood it is possible by careful management to regulate the heat of the room. Oil and gas heaters should be used only to secure quick temporary heat, as, for example, when the bathroom is to be warmed for the bath. Open fires are pleasant, but if used without other heating apparatus are not very well adapted to nursery purposes, as they create more or less draft, and do not warm the room evenly. In mild weather or for cool nights and mornings in warm weather such a fire is a great comfort. Needless to say, open fires must be carefully screened to avoid accidents.

Summer-In Summer, in most parts of the United States, the problem is to keep the nursery cool, at least during the day. In the hottest weather the lower part of the house is usually cooler than nearer the roof, and it may be wise to move the baby about in order to secure a place for him to take his daytime naps in comfort. Although the evening may be very hot, the temperature usually falls before morning, and in some parts of the country summer nights get quite cold. In all these varying conditions the mother must use her common sense and her ingenuity to make the baby as comfortable as possible. He should wear only the band and diaper during the hot hours of the day, and light clothing at night, if the heat continues; and his body may be cooled with a sponge bath upon going to bed.

The temperature of the baby's room should be regulated by a thermometer, hung about three feet from the floor. No active adult can guess accurately the temperature prevailing about the baby's body. A thermometer is an inexpensive necessity in every well-regulated nursery.

To The Mothers of Appleton

If any mother with a baby under one year of age has not received a copy of that beautiful and authoritative book, "Baby's Health" call upon the Appleton Post-Crescent, or any members in Appleton of the Baby's Health Association and a copy will be given free.

9 VACATION SCHOOL PUPILS WIN PRIZES

Nine children attended the daily vacation school conducted by Methodist Episcopal church this summer were awarded prizes for excellence and application in craft work at the exhibit and closing exercises of the school Friday afternoon. Miss Esther Miller, secretary, awarded the prizes.

The exhibit was for parents and friends of the pupils. The young people sang several songs and then conducted the older folks about the room so that they might see the entire exhibit.

The prizes were: Enameling, Clarence Reuhs; basketry, Dorothy Thompson and Fay Kray; stenciling, Lillian Oelga; sewing for older girls, Dorothy Rogers; sewing for younger girls, Irma Gillette; bead work, Mildred Oelga; manual training, Dean Mory and Charles Meade. Many of the little folks were given special mention for the work they did.

MT. OLIVE CHURCH HONORS DEDICATION

Mount Olive Evangelical Lutheran church will celebrate the third anniversary of the dedication of its building with a special service at 10:30 Sunday morning. There will be a program of song, praise and thanksgiving and the sermon will be delivered by the Rev. Ernst Moll, pastor of Trinity Lutheran church, Oshkosh.

Reports presented at the quarterly business meeting at 1:30 in the afternoon will show what progress the congregation has made in paying for the new church building.

CHURCH SOCIETIES

Junior Olive Branch society will have a regular meeting Monday evening in the Mt. Olive Lutheran church parlors. Routine business will be transacted.

WOMAN SO ILL COULD NOT WORK

Tells how Lydia E. Pinkham's Vegetable Compound Stopped her Suffering and Restored her Health

Momence, Illinois.—"I surely can recommend your medicine to other women who have female weakness, as it has helped me very much in every way possible. I was working in a dining room in town, and sometimes I could not do my work; had pains in the lower part of my body and had to stay in bed. One of my neighbors told me what good Lydia E. Pinkham's Vegetable Compound did for her, and it has surely done wonders for me. I hope all women who suffer will take my advice as the Vegetable Compound has done so much to bring back my vigor and strength."—Mrs. ALBERT E. DESCHAUD, Momence, Illinois. Over 121,000 women have so far replied to our question, "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?" 98 per cent. of these replies answer "Yes." That is 98 out of every 100 women who take this medicine for the ailments for which it is recommended are benefited by it. For sale by druggists everywhere.

RE LEASE SATURDAY— TANGLE
LETTER FROM SYDNEY CARTON
TO PAULA PERIER

MY DEAR GIRL:

I always expected this of you. I knew, when the occasion arose, you would rise to it. You can close the book now, and although it has been rather tragic, yet in a way you must be glad that you read it clear through to the end; for I am sure you have learned that loving is not all of life, and that the greatest pain must cease some time.

A very charming woman told me the other day that people were very foolish to worry. She said: "If one has trouble, you may either help it, or it may overcome you. Don't worry about it. If you do, it won't worry you any more, and if you work it out, you don't need to worry any more." Rather good philosophy, isn't it?

I am awfully glad you saw Leslie, Paula, for under any other circumstances you two women should be great friends. I always thought this, and I know it now since I received your letter after you had met Leslie.

It was a brave thing of you, my dear, to decide not to make any trouble about the boy. Of course I know you really could not do anything unless you made Leslie so miserable that she would voluntarily give the baby up, and I do not think she would do this under any circumstances.

Leslie, you know, has a very tenacious sense of duty, and having taken the boy into her home, I think she would feel she could give him a better bringing up than you. I do not think she would feel this because of any moral scruples, whatever, but because your work necessarily would keep you away from him. You could not give him the mother's care that she can give.

You will also forgive me, Paula, if I say to you that as the years go on your hurt will grow less and less, and the boy will seem but a dream to you. Your fate is to be that of a great cinema queen.

I am not sure I would wish that fate for any woman that I cared much for, for all the women I have ever known, and I have known three or four, that were on the stage, and who were successful actresses or singers. I have known none that was particularly happy. One has to pay for the plaudits of the public by the loss of the real love of one's friends.

As things have turned out, my dear, I am glad you went back to Albany. It was a triumph for you outwardly as well as inwardly. You made all those supercilious women rather envious of you, and I know that you made me very proud of you. For you not only conquered their prejudices, but your own lesser self.

I expect I am preaching a little, but sometimes I feel like an old, old man who has seen every phase of life, and yet who has missed the one great joy of living.

I am returning east very soon, and probably will miss you some, where along the way. But again I want to tell you I am glad you have met Leslie and appreciate her goodness, her sweetness, and all her other splendid qualities.

Through a chain of circumstances we seldom meet, yet to me Leslie Prescott is the most delightfully sincere woman I have ever known there. I love her.

Dear Paula, keep my secret as I have kept yours.

Always,
STC

DEATHS

The funeral for Mrs. J. C. Brockman, 753 Central st., who died Wednesday morning, was held at 2 o'clock Saturday afternoon from St. Paul Lutheran church with the Rev. T. J. Sauer in charge. Interment was in Riverside cemetery. Bearers were J. W. Gruppe, Ernest Raddatz, Henry Lerche, William Hass, George Wolf and Max Riffe.

HOPFENSPERGER FUNERAL
The funeral of Arthur Hopfensperger was held Friday morning with interment in St. Joseph cemetery. William Hopfensperger of Marshfield, and son Max, of Stevens Point, Pete Hopfensperger of Junction City, and Mr. and Mrs. Frank Hopfensperger of Dorchester attended the funeral.

Chronic Sufferers
I want to talk to you. The fact that you have been treated elsewhere without benefit does not discourage me in the least. I am helping men and women every day effecting cures, many times in cases pronounced incurable by others, so that I feel sure I can do as much for you. My

bles, Catarrh, Blood and Skin Diseases, Constipation, Urinary and Kidney Diseases and Diseases peculiar to women.

Dr. Turbin
who has visited Appleton for the past
thirty years, will be again in

COURT SLASHES \$1,000 OFF SUM AWARDED WIDOW

Industrial Commission Upheld, Except for Amount of Compensation

District Attorney John L. Lonsdorf has received a copy of the decision of Judge L. Ray Stevens of Dane county circuit court in the case of Combined Locks Paper company and Aetna Life Insurance company vs. Mrs. Olga Kray and Industrial Commission of Wisconsin in which he decided in favor of Olga Kray, except that he reduced the judgment by approximately \$1,000.

The husband of Olga Kray, employed by Emil Buss, was killed by a train while driving a truck that was loaded with freight for Combined Locks Paper company. Mrs. Kray received \$2,500 from the railroad company and later started action against the Combined Locks Paper company for compensation.

The industrial commission allowed her \$5,200 the full amount of a death claim. An appeal was taken to Dane county circuit court and in his decision Judge E. Ray Stevens said that the \$2,500, less one-third, was to be deducted from the \$5,200. The question involved in the case was whether Buss had a contract with the Combined Locks Paper company.

MENASHA NOW IN BOY SCOUT COUNCIL

District Committee Is Elected and Plans Made to Raise Fund of \$625

Menasha linked its boy scout activities up definitely with the reorganized Fox River valley boy scout council under the new executive, P. O. Kelcher, at a meeting at Menasha club Thursday evening. Representatives from that city on the valley council will be M. G. Auer, Mowry Smith and W. G. Trilling.

Election of a district committee for Menasha was held as the preliminary to reestablishing the work and E. H. Schultz was elected chairman. John Rimmel was chosen for secretary-treasurer.

Mr. Kelcher explained the purpose of the organization and the duties and responsibilities of the committee.

It was decided that two representatives from each of the cooperating fraternal patriotic and civic organizations and churches interested should constitute the local committee. Elks, Eagles, American legion and Germania society were represented as well as the three Catholic parishes, St. Patrick, St. Mary and St. John; also St. Thomas Episcopal church and the Congregational church.

M. G. Auer reported that the Eagles, who had previously contributed \$50 towards the quota as a club, were prepared to begin the solicitation of funds towards Menasha's quota of \$625. The committee expressed appreciation of this offer and authorized the Eagles to proceed. Plans for completing the quota will be discussed when reports from the Eagles canvass are in.

Troop 3 of Menasha probably will be asked to put on a public demonstration of scouting at an early date as a means of promoting interest in the movement.

Others present at the meeting besides those mentioned above were Ben Plowright, Waldo Friedland, Carl Meyer, John Backus and Dell May-hew.

BUILDING PERMITS

Only one building permit was issued by the city building inspector, George E. Peotter on Saturday. The permit was for a basement addition and garage at the home of Oliver G. Feavel, 1064 Alvin st.

VOTE ON NEW MEMBERS AT MT. OLIVE SUNDAY

Vote will be taken on new members at the quarterly business meeting of Mount Olive Evangelical Lutheran church at 1:30 Sunday afternoon. The session will be held in the church basement. Semi-annual reports on finances and other activities also will be made at that time.

Plan For Convention Officers of the Wisconsin Shoe Dealers association will meet in Appleton on Sunday. Plans for the state convention at Fond du Lac, Aug. 12 and 13, will be made at this time. R. F. Sager of Green Bay, who is president of the association, will be present at the meeting.

Farm Taxing Basis Unfair, U. S. Avers

Arguing that taxes based on the assessed valuation of farm property are unfair, when compared with taxes levied in cities, the United States department of agriculture, in bulletins sent to Outagamie-co officials, declares that taxes would be more just if they were based on the earning power of the property. Surveys in many parts of the country indicate that on the basis of the ability of the taxpayers to pay taxes from the earnings from their properties, farmers are assessed higher than urban dwellers.

The survey also showed that in many instances a very large proportion of the cash rent for farms is absorbed by taxes, leaving little for the owners. In 25 states it was found that taxes absorbed all the way from 5.6 per cent in Virginia to 65.6 per cent in Pennsylvania. In Dane-co, Wisconsin, taxes on farm property aggregated 38.6 per cent of the cash rent received for the property. This ratio is the second highest in the country, being surpassed only by Chester-co in Pennsylvania. In Lenawee-co, Michigan, taxes amount to 38 per cent of the cash rental and in Macoupin-co, Illinois, the ratio is 18.2 per cent.

600 Cases of Berries H. B. Blue, who resides near Medina, has a strawberry patch containing two-thirds of an acre from which he has picked 600 cases of berries each case containing 16 boxes. The biggest single picking was 119 cases. The quality was above the average.

20 PER CENT BOOST IN PRICE OF FLOUR

Increase in Price Follows Rapid Rise of Price of Wheat

The last week has seen a sharp increase in the price of flour, and information secured at local stores revealed that the price has risen from \$8.50 a barrel to \$9.40 and \$9.70, making an increase of 30 cents to \$1 the barrel.

Flour prices have gone up every day this week and the f. o. b. rate at Minneapolis is now \$7.85 a barrel, compared with \$6.75 when the sensational advance in wheat started a few weeks ago. The advance is just a trifle less than 20 per cent, or approximately \$1.25 a barrel. In a week, wheat advanced 10 cents a bushel, equivalent to 50 cents a barrel on flour. A milling representative in Milwaukee predicted that wheat would rest around \$1.50 a bushel after the present fluctuations simmer down to a stable market. This would mean further advances in flour.

Repair Tracks Minor repairs are being made on the street car tracks at the Onelda-st and College-ave intersection by the Wisconsin Traction Light Heat and Power company. The double track used by the city cars is being worked on. Several lengths of track are being replaced.

A case in the pantry will chase wolves from the pantry—DANISH PRIDE MILK.

1,200 CARS AN HOUR ON LAKE-ST BRIDGE

Informal Traffic Count Indicates More Traveling Than Ever Before

Traffic on Lake-st was never more congested than it has been this month. It commences early in the morning and is heaviest late in the afternoon, early in the evening and from 11 o'clock at night until 2 o'clock in the morning.

While sitting on his porch one day this week, John Hackworthy made several counts of five minutes each. The highest count was 110 automobiles in five minutes or 1,320 an hour and the lowest 55, or 660 an hour. Most of the counts ranged from 85 to 95 and Mr. Hackworthy said \$80 would be a low average. This would mean 3,600 in 10 hours or 17,280 in 18 hours.

The number of foreign cars passing through Appleton this year is nearly double that of previous years. Illinois cars are almost as numerous as Wisconsin cars.

Injured in Fall Joseph Bleier, 1091 Lawrence-st, suffered a cut over the left eye when he fainted while at the corner of College-ave and Onelda-st about 4 o'clock Friday afternoon. He was conveyed in the police ambulance to the office of a physician. Bleier was leaning against a pile of bricks beside the Whedon-bldg when he toppled over.

Mrs. Edward Kroll and children and the Misses May and Lydia Engel of Milwaukee are spending several days at the home of Mrs. Chauncey Grunert, 1062 Parker-st.

CHERRIES TO BE ON MARKET NEXT WEEK

Because strawberries were cheap this season many housewives bought great quantities and canned them for winter months when fresh fruit and canned fruit is expensive. This year the best strawberries could be secured for \$1.80 a crate, while berries of a less excellent quality were sold as low as \$1.50 for 16 quarts.

Peaches are on the market now, but Appleton grocers predict they will be cheaper than they are now. At present they are selling at about \$3.50 a bushel and \$1.75 a crate. Plums are selling at 35 cents a basket, but it is believed that the price will be lower later on.

Raspberries and cherries will be on the market the first part of next week. Cherries now can be bought for 20 cents a quart, but the Sturgeon Bay cherries probably will be shipped the first part of the week.

Miss Catherine Garvey of Freedom is spending the week at the home of her aunt Mrs. T. Ellenbecker, 476 Cherry-st.

Mrs. Charles Mueller of Portland, Ore., formerly of Appleton, is visiting her son, Edward O. Mueller of Grand Chute.

See The Pettibone Model House Tomorrow

THE MODEL HOUSE will soon be completed. The painters will start inside Monday and while the paint is wet, the House must be closed. Be sure and see the building tomorrow for all of the new conveniences and ideas in home building can now be seen. Notice the many cupboards and closets—things that mean so much in ideal houses.

Gum Wood is Used Throughout

All interior woodwork in the Model House is of fine, selected gum wood. This wood is the best foundation for enamel, as the grain is very inconspicuous. The enamel will be a delicate ivory tint and the hardware downstairs antique black. This note will carry out the Colonial atmosphere of the House. The hardware upstairs is brushed brass—a finish that is better adapted to the second floor.

The Model House Has Been Sold

The Model House was sold several weeks ago, and will be turned over to the owners some time in August. The sale of the House does not prevent your seeing it, and you are invited to go through it at any time until the new owners take possession.

RED RASH ON FACE AND HEAD Itched and Burned. Lost Sleep. Cuticura Heals.

"The trouble first started with a red rash that covered my face and head. Later it took the form of pimples that disfigured my face. The pimples itched and burned causing continual scratching, and the scratching caused eruptions. My hair became lifeless and dry, and I lost sleep at night because of the irritation."

"A friend recommended Cuticura Soap and Ointment so I purchased some and after using four cakes of Cuticura Soap and two boxes of Cuticura Ointment I was healed." (Signed) Miss A. E. Dan, 1301 Perry St., Davenport, Iowa.

Use Cuticura to clear your skin. Samples Free by Mail. Address: "Cuticura Laboratories, Dept. B, Malden, Mass." Sold every-where. Soap 25c. Ointment 15c. and 5c. Tubes 5c. Try our new Shaving Stick.

A New Enclosed Paige for only \$2175!

[Standard Open Models Now \$1795]

The New 4-Door Brougham

THINK! Last year the 4-door enclosed Paige sold for \$3235. Here's the New Paige Brougham—smarter in appearance, better in performance—for only \$2175! Now think what this means:

You can get an enclosed Paige today for the price of an ordinary, smaller enclosed car! You may now enjoy fine big car performance, comfort, appearance for \$1000 less than it used to cost! Yes—\$1000 less than it costs today in any other car!

Great Performance

There's a new thrill waiting for you. Just drive the New Paige and the marvelous performance of the big 70 h.p. Paige motor will tell you what a real joy ample power can be! Throttle down to 2 miles an hour in high when traffic thickens

—then see the big New Paige pull quietly ahead when you touch the accelerator. Paige is a perfected six. That means perfect balance, smoothness, simplicity. More cylinders would only reduce its efficiency—add useless parts.

Easy to Drive

Easy to drive? None easier than the New Paige! The gentle Paige clutch forbids jerking or stalling. And ball-bearing steering spindles give finger-touch guidance!

Paige riding comfort will open new routes for you—roads you shunned before. For the big New Paige—with 131-inch wheelbase, rear springs more than 5 feet long, snubbers—laughs at bumps. This New Paige Brougham looks the thoroughbred, too. The rich maroon finish of the body contrasts

smartly with the ebony of the radiator and fenders and the black fine-grain leather finish of the top and rear.

Here, indeed, is a record value—a smart enclosed Paige at \$2175! You cannot match Paige with any car near its price. For Paige has a longer wheelbase, giving better comfort; more weight, meaning greater strength; and more power, assuring long motor life and amazing performance.

Try to Match Paige Value

To get a 4-door brougham with all these Paige qualities you must pay at least \$1810 more than the remarkably low price of this smart Paige Brougham!

Drive this New Paige. Compare it in every point with other fine cars. Call us for a demonstration. (548-4)
